- **Grade:** First-Class Honours

- **Relevant Coursework:** Databases, Artificial Intelligence, Data Structures & Algorithms, Software Engineering, Web Design, Operating Systems, Linear Programming

**Basildon Upper Academy** - *A-Levels and BTEC Computing, Basildon, UK* November 2019 – September 2020

- **A-Levels:** Mathematics A and Chemistry B; also completed BTEC Computing, building a strong foundation in programming, logic, and software development.

## SKILLS

---

**Programming and Web:** Python, SQL, HTML, CSS, JavaScript, Django.

**Data and Reporting:** Microsoft Excel, pivot tables, data cleaning, dashboards, IBM Cognos Analytics, Looker.

**Tools:** GitHub, Axure RP, FTK Imager, Autopsy.

**Soft Skills:** Analytical thinking, communication, teamwork, attention to detail, adaptability, customer service, problem-solving.

## PROJECTS

---

**London Living Intelligence** | *Data Analytics Platform* 2026 – Present

- Developing a data analytics project exploring London boroughs through housing, transport, safety, and demographic data.

- Designed to demonstrate data cleaning, borough comparison, dashboard planning, insight generation, and business-style reporting.

**Personal Portfolio Website** | [Live Website](#) | *HTML, CSS, JavaScript* 2026

- Designed and developed a responsive portfolio website to present projects, education, experience, certifications, interests, and contact details.

- Focused on clean UI design, mobile responsiveness, smooth navigation, and professional personal branding.

**AnimeSculpt E-Commerce Website** | [GitHub](#) | *Django, Python, HTML, CSS, JavaScript* November 2022 – February 2023

- Built an anime merchandise e-commerce website with user authentication, product browsing, dynamic content, and a reward spin wheel.

- Applied full-stack development, user engagement, interface design, and problem-solving skills in a university project.

## EXPERIENCE

---

**Compass Group** - *Restaurant Associate, London, UK* June 2025 – Present

- Support daily hospitality operations through customer service, order accuracy, payment handling, teamwork, and process adherence in a fast-paced environment.

**Fiverr** - *Freelance Research & Project Assistant, Remote* March 2023 – Present

- Deliver research, reports, presentations, and project support for clients while managing requirements, deadlines, communication, and quality.

**Off To Work Agency** - *Hospitality Team Member, London, UK* February 2022 – June 2025

- Worked across events and professional venues, developing communication, adaptability, teamwork, and the ability to work under pressure.

## CERTIFICATIONS

---

**Data Visualization and Dashboards with Excel and Cognos** | [IBM](#) October 2024

- Created interactive dashboards and visualisations using Excel and IBM Cognos Analytics for data storytelling and reporting.

**Excel Basics for Data Analysis** | [IBM](#) October 2024

- Learned data cleaning, Excel functions, pivot tables, and basic data analysis workflows.

**BLUE Badge Mentor Mates Certificate** | *University of Greenwich* July 2024

- Supported students as a peer mentor, developing communication, leadership, adaptability, and time management skills.
